Re: 2004 Watershed Stewardship Grant

Ms. Carlson,

Campus Community Association through its subcommittee Friends of Coyote Creek extends its gratitude to the SCVWD Board of Directors and staff for the award of the 2004 Watershed Stewardship Grant. Regrettably, we must respectfully decline the grant award since the delayed award date cannot be reconciled with our proposed schedule. We regret any inconvenience this may cause.

Seasonal weather constraints imposed by the shifted schedule have imposed challenges that we cannot overcome. Additionally, two key volunteers have committed to other projects and are no longer available for this project.

Thank you for your support of environmental causes. We hope that we may work with your organization in the future.

Sincerely,

David Erickson  
President, Campus Community Association

cc. Joe Judge, Chair, Santa Clara Valley Water District
